FUTURE CITY | I SIMI LAGOS

A New Town Development Project by **LandWey**[®]

“Isimi” is a Yoruba word that means rest or peace of mind. This name was carefully chosen because it best captures the experience that Isimi Lagos represents.

Isimi Lagos is your best destination for work and play. It is the perfect meeting point between technology, architecture, and nature; but of course, nature is the dominant factor here.

The topography of the whole Isimi Lagos will be largely retained to maintain its natural state. Buildings, roads, and other infrastructure are planned to be built around the existing geological structure. Transportation around Isimi is also eco-friendly and great for an active lifestyle.

Isimi Lagos offers work and living spaces that are ideal for short and long term use. Polo enthusiasts will love the well-maintained world-class turf and other top-notch facilities for equestrians. Fresh produce can be gotten straight off the farms and other activities like kayaking and fishing bring a flavor that makes you forget the bustle of the city and sink deeper into nature’s loving arms.

If you’re looking for a place for your next vacation, company or team retreat, or just somewhere you can go to embrace nature and get some well-deserved rest, Isimi Lagos is an excellent choice.

If Mother Nature had a room

Decor and furniture all over Isimi Lagos are carefully made for comfort and functionality. Our earthy colors complement nature's grand palette and make you feel right at home.

The Polo Turf

An aerial architectural rendering of a new town development. The central feature is a large, rectangular polo field with alternating green and yellowish-green stripes, bordered by a wooden fence. To the left of the field is a row of modern, single-story houses with flat roofs. To the right is a winding road with a few cars. In the background, there are more residential buildings, a circular swimming pool, and a large, open green space. The entire development is surrounded by lush green trees and vegetation. The title 'The Polo Turf' is written in large white letters in the top left corner.

The Game of Kings on a turf fit for royalty

Isimi sits on over 305 acres of land; that's more than enough room to carve out a standard Polo field. The Polo turf is well-maintained and at par with some of the best in the world. Isimi Stables boasts the very best horses, with a dedicated team of trainers and carers who take care of them and prepare them for game day or leisure rides.

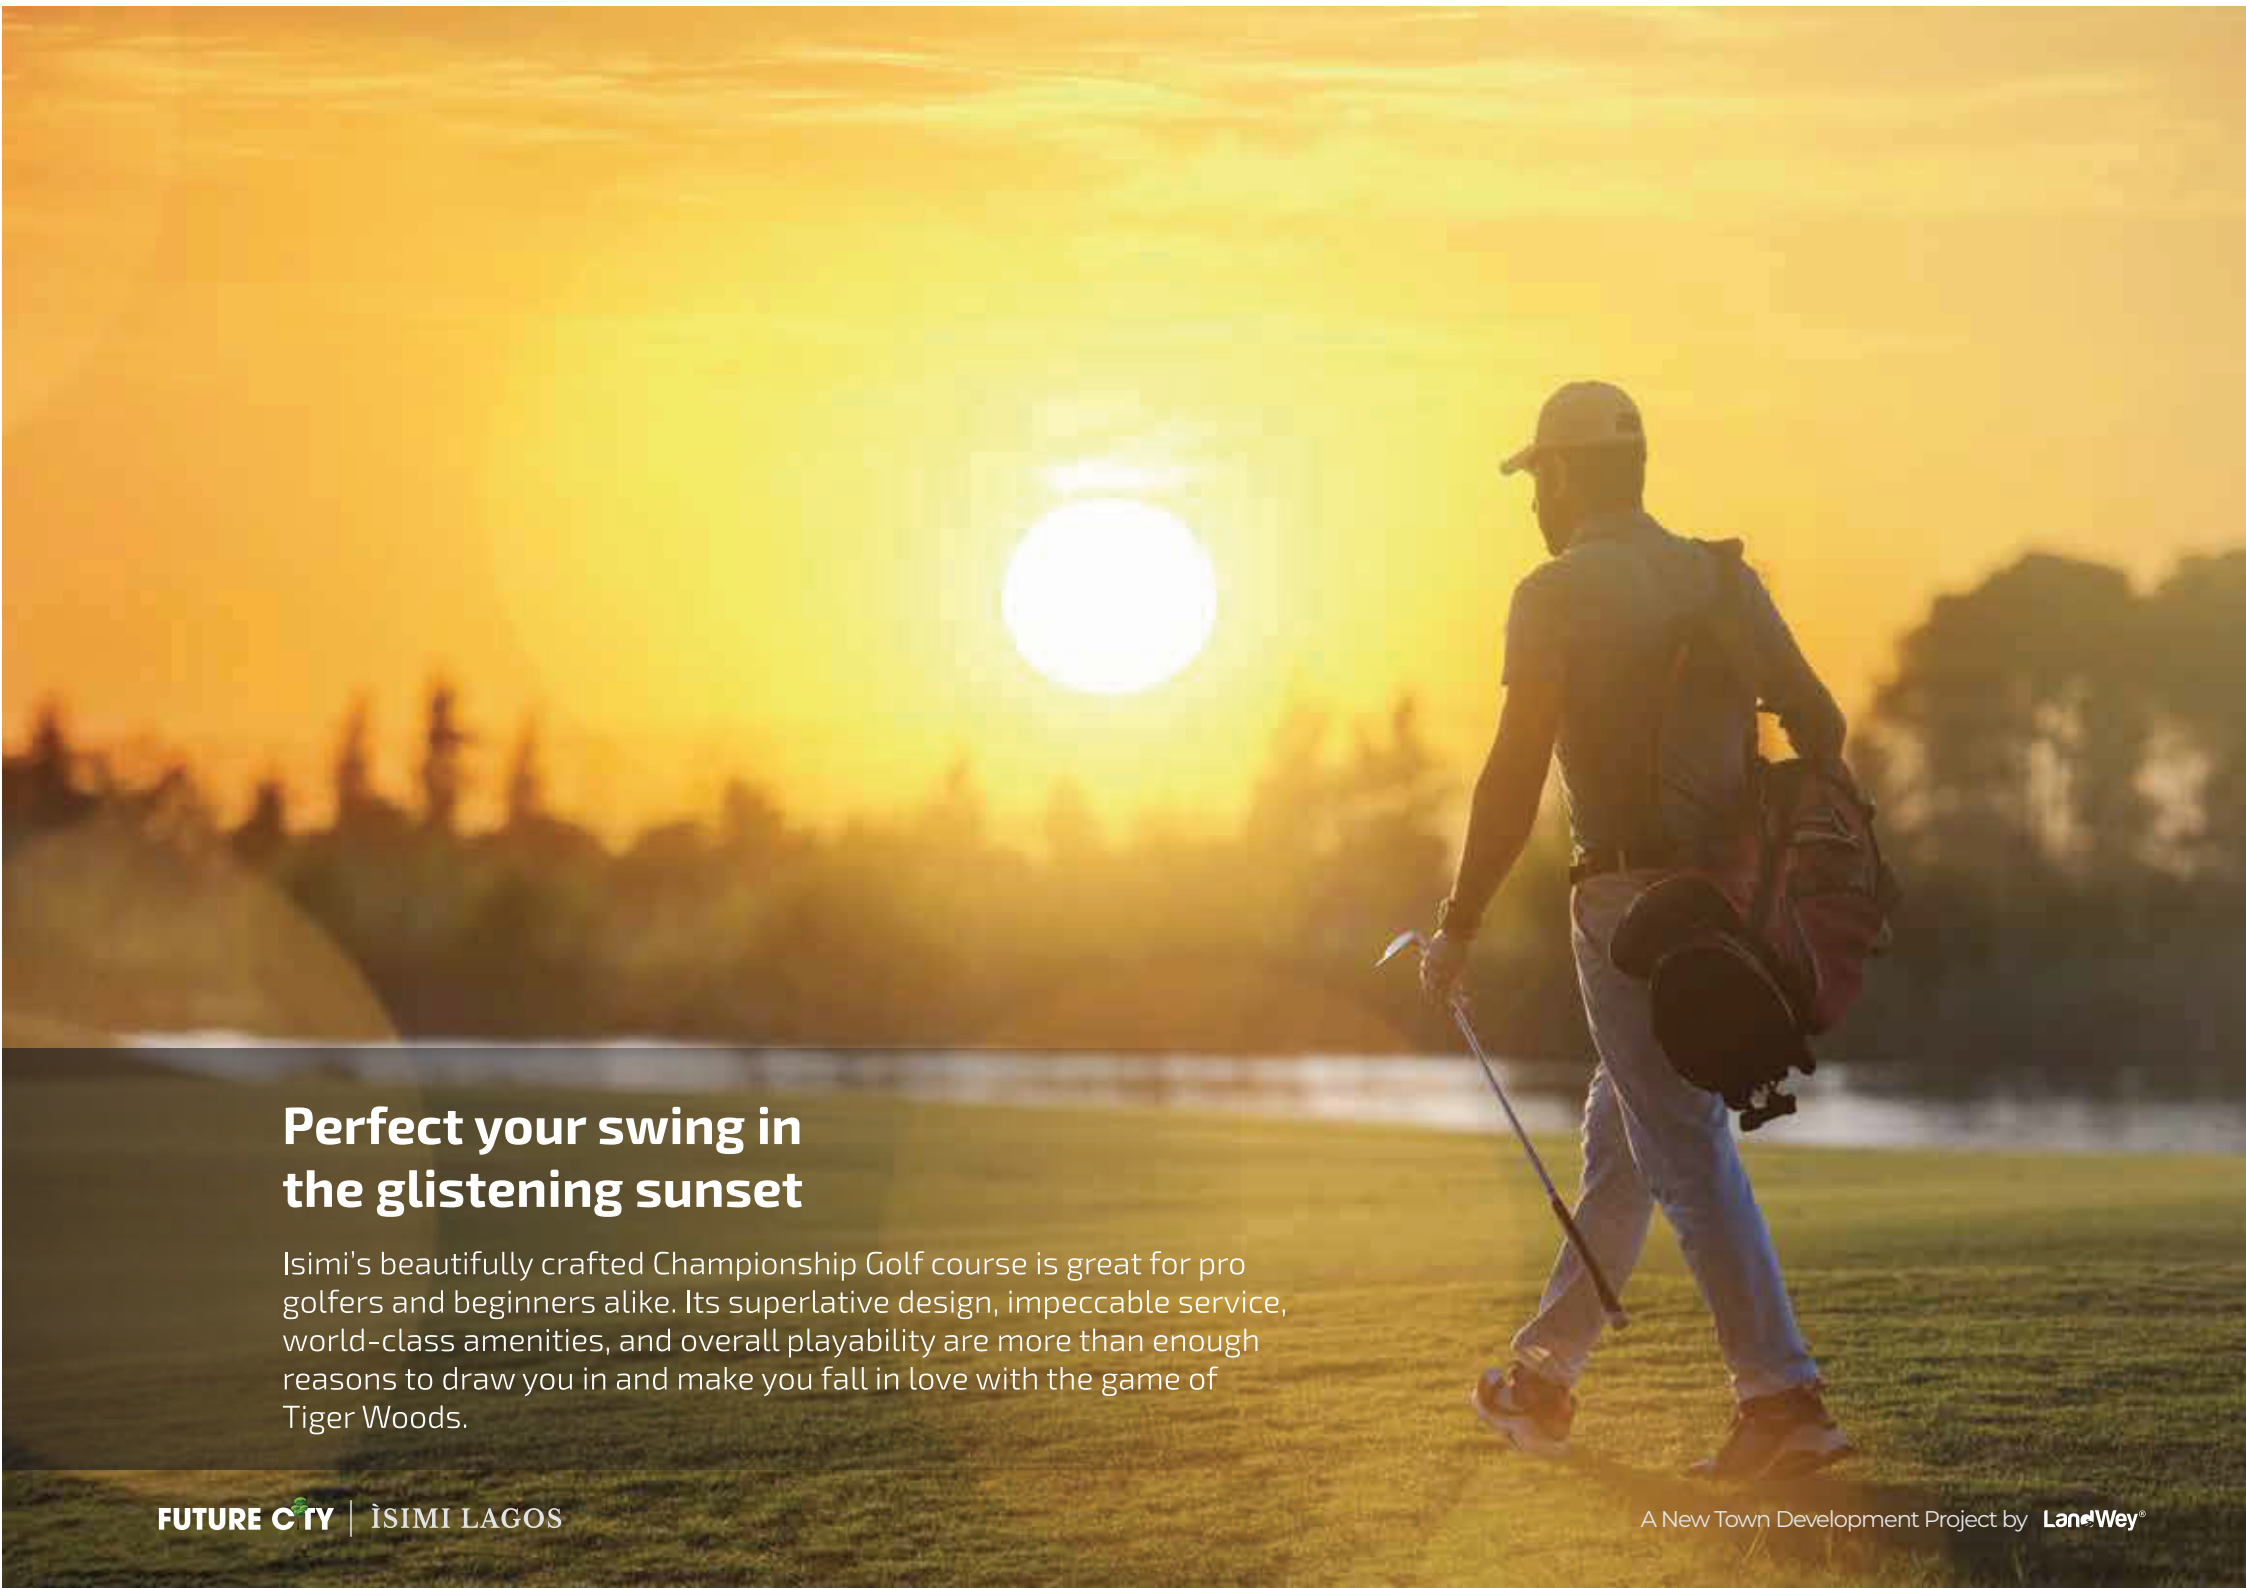

Everything is better at the lake

Kayaking, fishing, picnics, reading, parties, naps, group meetings, hangouts - everything is truly better at the lake. Isimi Lagos sports a natural lake that will simply take your breath away.

A full-page background image showing a golfer in silhouette walking across a green golf course at sunset. The golfer is wearing a cap and carrying a golf bag on their back, holding a club. The sun is a large, bright orb in the center of the sky, casting a warm, golden glow over the entire scene. The horizon is visible with some trees and a body of water in the distance.

Perfect your swing in the glistening sunset

Isimi's beautifully crafted Championship Golf course is great for pro golfers and beginners alike. Its superlative design, impeccable service, world-class amenities, and overall playability are more than enough reasons to draw you in and make you fall in love with the game of Tiger Woods.

Nurtured by us, handpicked by you

Isimi Farm brings you as close to the source of your food as you'll ever get. You can enjoy the satisfying experience of harvesting fresh vegetables and crops right off the soil, or watching livestock roam free.

A person is shown from the chest up, splashing in water. Their arms are raised, and a large splash of water is captured mid-air, creating a dynamic and energetic scene. The background is a bright sunset or sunrise, with the sun low on the horizon, casting a warm, golden glow. The water's surface is calm, reflecting the bright light from the sky. The overall mood is refreshing and invigorating.

Water... Lots of It!

Bask in the pool or the lake, whatever you choose, you've got lots of water to cool off in.

Hello Heli!

There's more than one way to get in and out of Isimi.
Our dedicated Helipad provides you with a traffic-free
means to commute to and fro.

THE LAGOONA

An aerial night-time rendering of a coastal development project. The scene features a large body of water, likely a lagoon or bay, with several sailboats and small boats. Along the shoreline, there is a series of modern, multi-story buildings with flat roofs and balconies, illuminated from within. To the left, a large, circular, illuminated structure with a colorful, multi-colored light display is visible. The surrounding area includes lush greenery, palm trees, and a winding road. The overall atmosphere is one of a modern, luxurious coastal town.

An aerial photograph of a dark asphalt road that curves through a lush, dense green forest. A small red car is visible on the road, moving towards the bottom of the frame. The road has white dashed lines in the center and solid white lines on the edges. The forest is thick with various types of trees, creating a vibrant green canopy.

The Thrill of the Drive

Isimi's excellently planned and built road network is a dream come true for fitness and motorsport enthusiasts. They're also perfect for long walks and workouts.

Eco-friendly Transportation

Imagine an environment without the buzzing and honking sound of automobiles; a place where you can move around in eco-friendly transportation alternatives like bicycles and hybrid electric vehicles. This - and more - is what Isimi has to offer.

The background image shows a bright, modern workspace. It features large windows with a grid pattern, allowing natural light to fill the room. The furniture consists of several wooden tables and white chairs with wooden legs. The overall atmosphere is clean, open, and collaborative.

Cheers to working together

Much like nature's original intent, Isimi creates a peaceful environment for people to co-create. Our workspaces are built to encourage community but not stifle individuality.

EPE TOWN

Isimi Lagos is located in Epe which is a town and Local Government Area in Lagos State, Nigeria situated on the north side of the Lekki Lagoon.

Modern Epe is a collecting point for the export of fish, cassava (manioc), corn (maize), green vegetables, coconuts, cocoa, palm produce, rubber, and firewood to Lagos. Special leaves useful in preserving kola nuts are trucked to Ijebu-Ode, Shagamu, and the other main kola-shipping towns.

Epe is best known for its construction of the motorized, shallow-draft barges that navigate the coastal lagoons. Fishing is the major occupation. The town is served by secondary schools, several hospitals, and a health office.
